Citizen-Ship ... the equipment that made **RADIO CONTROL POPULAR**

**FIRST
FCC
APPROVED**

**Consistent Winner of TOP AWARDS
in Model Radio Control Competition**

CITIZEN-SHIP radio control equipment won **FIRST PLACE** the first time it was used in competition at the 1950 Nationals in Dallas, Texas. Since then it has placed not only first but has scored a clean sweep of first, second and third at many important meets including the Internationals.

Citizen-Ship

**Examination
FREE**

Radio-Control

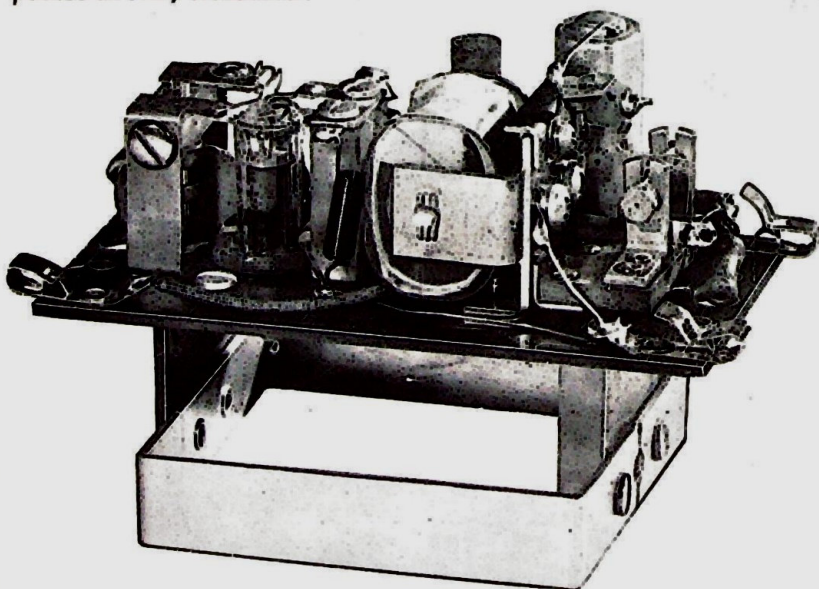

On the CITIZEN BAND

For control of free flight planes or model boats.

Operates on 465 megacycles with equipment shown on this page.

No Operator's License Required

NO EXAMINATION . . . Station License Form 505 is packed with each CC Transmitter for your convenience. Fill out and mail to your nearest FCC Field Engineering Office listed in Operating Instructions packed in every Transmitter.

RECEIVER MODEL CR

Exactly as photographed above (actual size) contains factory tuned precision unit with built in antenna.

Guaranteed to fly "out of the box."

\$29⁹⁵

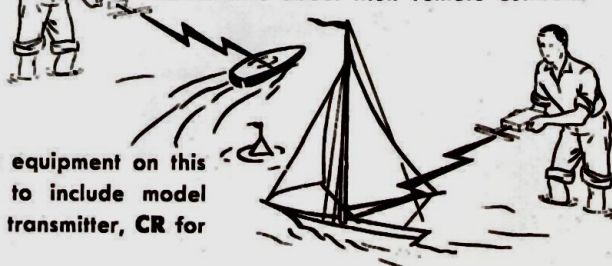

TRANSMITTER MODEL CC

Shown above, a completely self-contained hand held unit weighing only 4 pounds with batteries. Overall dimensions less than 13" by 14" including antenna. Price, less batteries.

\$39⁷⁵

MOTOR BOAT RACING

Sail boats too, can compete for new laurels with Citizen-Ship controls. Model boat builders are enthusiastic about their remote controls.

When ordering equipment on this page be sure to include model letters—CC for transmitter, CR for receiver.

Citizen-Ship FIRST in Model Radio Control
