## Radio-Controlled

# Citizen-Ship

**NO EXAMINATION**

**No operator's license required!**

RECEIVER MODEL CR

Exactly as photographed above (actual size) contains factory tuned precision unit with built-in antenna. Even small plane with .099 engine will lift this marvelous mechanism. Weighs just 5 1/2 ozs. Recommended battery weight 9 ozs. Price, less batteries

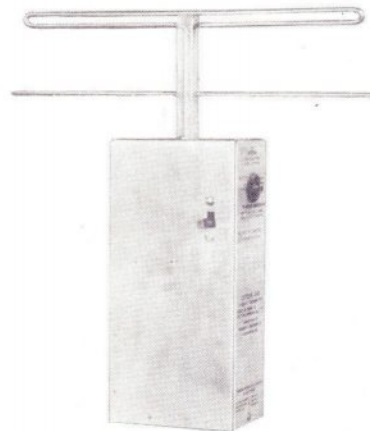

**\$29.95**

TRANSMITTER MODEL CC

Shown below is a completely self contained unit weighing only 4 lbs. with batteries. Over-all dimensions less than 13" by 14". Price, less batteries

**\$39.75**

The greatest thrill of model flying . . . radio controlled free flight . . . is now at your command. Opens a new era in controlled flight with possibilities limited only by ingenuity of the model builder. Yours to enjoy at a price you can afford. Citizen-Ship transmitters and receivers are sold separately in order that clubs may purchase a single transmitter, while individuals may own several receivers. Mail handy coupon on other side of this sheet to order now . . . or wire for first units now available. Address Dept. MA-1.
